DETAILED ACTION

Claim Rejections - 35 USC § 102

Claims 3 and 6-7 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Kawaguchi 6052171.

Regarding claim 3, in accordance with applicant's specification, changing of the shape happens during heating. It is inherent.

Regarding claims 6-7, the terminal portion has bend in the region where it overlaps the TAB. See cover figure.

Claim Rejections - 35 USC § 103

Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Kawaguchi 6052171.

Lacking from the disclosure is thermocompression bonding, a technique which was conventional would have been obvious for that reason.

Allowable Subject Matter

Claims 1-2 and 4 are allowed.

Response to Arguments

Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The other references cited read on the rejected claims or render them obvious in a similar vein to the references applied above.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
